FIGHT BACK FOR BRITAIN!

No Surrender to Thatcher

THE HATED Anglo-Irish Agreement has now operated for 20 months. All the brave talk about it not surviving its first year has turned out to be hot air. All the promises by our old political "-leaders" to make Ulster ungovernable have come to nothing. The ferocious Unionist wolves have huffed and puffed, but Thatcher's Hillsborough house still stands. Perhaps our "leaders" were just self-important little pigs all along.

Ulster's loyalist community now faces the future with confusion, even despair. Among those who should be leading us in particular, the dominant mood is one of ***surrender.***

Paisley and Molyneux have ***surrendered.*** These gentlemen have failed to come up with a single constructive and sensible proposal for a whole year. All they have done is to muscle in on initiatives proposed by groups such as the Ulster Clubs, water down their proposals and render them ineffective.

Thus, for example, a promising campaign of Civil Disobediance ended up as a pathetic farce when we were told that honking our horns and putting up "V" signs in our windows would somehow cause the Agreement to crumble.

No doubt we'll see some more childish antics, but it's clear that the leaders of the Unionist parties have given up all hope of destroying the dictatorial Agreement.

MEEK

The *leaders* of the Orange Order have ***surrendered.*** We heard plenty of vows not to obey the orders of the NIO/Dublin junta when they tried to interfere with traditional parades. But when the crunch came, the leadership has meekly submitted to the requirement of seven days notice, and to re-routing.

The Provos continue to hold their provocative marches whenever and wherever they want, and the government does nothing to enforce the law. But *our* leaders have given up the fight to preserve loyalist freedoms.

Our Members of Parliament have ***surrendered.*** They started off very properly by boycotting the Westminster parliament which is irreversably hostile to Ulster. Although they let local councillors take the rap when it came to real risks, at least their refusal to sit at Westminster meant that there was no token loyalist presence to legitimize the undemocratic farce.

But now they are creeping back to their plush leather seats in London. And their climb down will signal to Thatcher that it's time to put the next phase of rolling Dublin rule into operation, because our old political leadership has abdicated its role at the head of a determined loyalist protest.

BUILD LOYALIST COUNTER POWER SEE CENTRE PAGES

LEAD OURSELVES

But all is not lost! This is not the first time that the people of Ulster have been let down by bad leadership. And the response today must be the same as before – ***we must lead ourselves!***

The 'Prentice Boys didn't pack up and hide indoors just because their leaders surrendered – they shut the gates themselves. And so too must we shut the gates on foreign rule. It's time now to forget about the old leaders and to start to build a new leadership – leadership *by* and *of* the people themselves.

Quite simply, what we need now is a leadership that will ***fight*** with every political, economic and cultural weapon at our disposal.

Fight to isolate the NIO and its RUC puppets and so make junta rule unworkable.

Fight to set up our own economic base, our own social services, our own essential supplies network.

Fight to build an alternative government which could take power as a result of a General Strike which becomes a General Work-In For Ulster.

Fight to destroy the myth that something will come along to save us if we don't take action ourselves.

If we all ***unite and fight*** on these lines, Ulster will live. The ideas needed for such a victory already exist. ***National Front News*** has printed several basic parts of the blue-print for Ulster Peoples' Democracy over the last year, and the centre pages of this issue explain them again.

Read them. **THINK** about them. **ACT** on them. And **WIN** with them.

WARNING
POLICE AT WORK

A SMALL CLIQUE of Special Branch spies, drunken crooks and Tories are operating a phoney "National Front." Having been expelled from the NF after their group was exposed, they have now set up on their own using our name. Their operation is designed to confuse the public and to disrupt our campaigns, and to act as a "listening post" for the intelligence services.

In order to do this, they even have their own bogus "NF" publications – a paper called *The Flag* and a magazine called *Vanguard*. Although the group has total active strength of no more than 50 members nationwide, they mysteriously find the money to produce this glossy propaganda.

It is believed that they will appear in Ulster for the main parades with special issues pushing sterile and unworkable Unionism, trying to con Ulster folk into believing that there is still a hope of getting fair treatment from Westminster.

There is not. If we want our rights we will have to organize to seize them. The real National Front's Ulster Central Executive warns these State-backed scum to stop spreading their nonsense in Ulster and to keep out of the way.

Don't forget. If you do bump into them, whatever you do, don't give them your address.

NF gain World-wide support for Ulster's Cause

THOUSANDS of copies of this issue of *NF News* will be sold in Ulster during the July parades, which have rightly been described as *"the last great uncommercialized folk festival of Western Europe."* Yet many thousands more will be will be sold in the rest of Britain, and copies will go to some twenty other countries all over the world. So this seems a good time to explain to these readers why the National Front is such a staunch advocate of the Cause of Ulster.

There are three reasons: ***moral; nationalist principle,*** and ***tactical considerations.*** Between them, they make what is going on in Ulster at present more important than anything else to the National Front.

The ***moral*** consideration springs from the eternal debt which Britain owes to the loyal Sons of Ulster who stood firmly by us in two World Wars. In the first hour of the Battle of the Somme in 1916, 5,500 men of the pre-war Ulster Volunteer Force fell for Britain. Yet in spite of these appalling casualties, the Ulstermen were the only British force to achieve all their first day objectives in that tragic battle.

DEBT OF HONOUR

The carnage of a European Brothers' War is nothing to be proud of, but it created a debt of blood and honour which Britain can only repay by standing by Ulster in *her* hour of need. The corrupt materialism of the modern age may sneer at the concept of "honour," but it is at the very centre of *our* world-view.

Similarly, the ***nationalist principle*** of self-determination for all nations means that we recognize Ulster's right to preserve her own unique culture and heritage, and to run her own affairs for the benefit of her own people. Yet these rights are today threatened by the treason of the Westminster State and by Dublin imperialism.

UNITY IN DIVERSITY

Ulster is one of the separate nations of the British Family of Nations. As far as the National Front is concerned, an attack on any one of those nations is an attack on all of them. We believe in the principle of *Unity in Diversity* and are committed to whatever action is necessary to foster and prserve the independence and identity of each British nation.

Thirdly, ***tactical considerations*** make Ulster an area of enormous interest to National Revolutionaries everywhere. There is nowhere else in capitalist Europe where a proud and defiant nation is under such a threat of imminent destruction as in Northern Ireland. Nowhere else is popular rejection of the Establishment so complete. Nowhere else are a people faced with such a stark choice: ***Seize power yourselves – or perish.***

As more and more people understand this, Ulster will move into a truly revolutionary phase. Quite simply, National Revolution in Ulster is a real possibility, not just a slogan. Nowhere else in Europe is there at present such a chance to overthrow the Old System and to create a New Order where power, wealth and arms are in the hands of the people of an awakened nation.

Yet once the dam of repression and ignorance which protects the Old World is breached in one place, it will be swept aside by the torrents of Freedom. If one of the British Nations can be wrested from the grip of the American/ Zionist/ Capitalist axis, then the liberation of the rest will not be far behind. And when Britain awakes, Europe's long drugged sleep will be at an end. Ulster is where it will begin.

IMPORTANT NOTICE. For more than a year, the National Front has been subjected to massive interference with the post going to and from its main offices. In order to minimize the disruption this State action causes, you are asked to *hand in* correspondence for every NF operation whenever possible.

If you do have to use the Post Office, *always use recorded delivery* and keep your receipt safely.

A message to the RUC from Portadown

Dear NFN,

As a concerned citizen of Portadown, I would like through your newspaper to put forward the views of people here on the violence which followed the Apprentice Boys' Parade on Easter Monday.

As the parade left the town centre, the RUC moved up to the barricades at the entrance to Woodhouse Street. Until they did this, everyone was moving peacefully out of the town, but naturally there was tension on the anniversary of the murder of Keith White by the RUC, so this provoked a group of youngsters into throwing stones at the police barricade.

The police then charged out and started to clear the town centre. This was quite unnecessary as most people were just standing around chatting to each other.

I have never seen such heavy-handedness being used by the RUC. They were pushing around women and even small children – people who could not have been involved in any trouble at any time. There was also a lot of filthy and foul language used by various officers, which was totally uncalled for.

The RUC also tried to provoke further violence by shouting *"remember what we did to Keith White."*

The police should be trying to prevent trouble, instead of adding fuel to a very tense situation. If their actions are repeated in the next two months, they might create a situation neither they nor anyone else can handle (which is something that none of us wants).

My advice to the Chief Constable is to take his men back to training college and teach them how to handle people. From their behaviour in Portadown, they have either never been taught this, or they have forgotten it.

I think I speak for all the people of Portadown when I ask the RUC to think and be careful about their actions – give us all a peaceful summer!

Yours faithfully,

J. Sands.
Portadown,
Ulster.

ULSTER STICKERS

THE ULSTER NF has just produced a range of six eye-catching stickers. Send off for your supply today and help spread the National Front's great vision for a New Ulster.

Past or Present ?

Dear Sirs,

I read your paper when I see it for sale from time to time. I think you are doing a good job under the most difficult circumstances. People in my age group – around 50 – remember what our country was like during the war and in the fifties when immigration started.

Even then, some of us tried to stop the Blacks settling in our land, particularly in Notting Hill Gate, but everytime we did something about it, the White people were hauled before the courts and given sentences like four years apiece.

If we had known then the enormous problems we would be saddled with in the future, I think the courts would have had to lock *all* of the White population up. We were told that they came to earn money, but though most of us young White people at the time had just finished National Service, they were put first in jobs even then.

I remember myself waiting at Griffin House, Marylebone Road and being turned down in favour of Black people for bus conducting. The problem then as now was also the great lack of money paid to the majority of British workers – a problem made worse by immigrants under-cutting wage rates.

People like me have worked hard for this country, but now we're all in a terrible predicament. Asians seem to be taking over all the shops. The education authorities sack any teacher who speaks up for the White children, and they have to travel miles to avoid schools where they are forced to mix with large numbers of Black pupils.

Unless you can convince the government to give White people a priority over these foreign guests and give us a share of our birthright – North Sea Oil – this country is heading for the most terrible trouble within the next ten years. And I predict that it will be the White race causing it!

Yours sincerely,

A sympathetic reader,
London SE22.

EUROPE of the Peoples

Hello NF News,

Yesterday I read a short report about you in *Nation Europa* and I'm very interested in getting for information about the NF.

Is it possible to write my address in your paper? I write-because I would like to have good (pen) friends in Great Britain. I love your country and have been there four times (once in Scotland, three times in the south of England). And I look for young nationalist British friends because I am also a nationalist and I want a united, strong Europe.

I have been interested in politics for about 7 years and I'm a member of the **Republikaner** (national conservative party) and I've got good contacts with the **NPD** (National Democrats) and the **Europe Jeunesse** in France.

But it would be great to have also friends of my age (around 14 – 21) in Britain (also for training my bad English!

I am 20, live in Hannover and I work in a supermarket. My education ended in June and I don't know what I'll do now. Perhaps I'll join the army.

I would be very glad to hear from you soon. Until then, good luck and all the best.

All for Europe!

FRONT-LINE ACTION

THE REPRESSION FILE

If you become a sufferer or know of some act of repression in your area, help us to publicize the facts. *Write with details and dates to the NWA at P O Box 57, Romford, Essex, RM7 9BG.*

* **LARNE.** A thriving NF sales unit, with both Catholic and Protestant activists, has been built up in recent months. The unit was able to sell 300 papers an issue in this small Ulster town. The RUC have launched a campaign to try to close the unit down.

NF News Supporters have been repeatedly stopped and questioned by the police. The youngsters are frequently arrested, taken to the RUC barracks, questioned, released, and then re- arrested on their way home. All but two of them now find it virtually impossible to leave their homes. Paper sales have been disrupted by police strong-arm tactics.

In May, nine of our people were arrested just for standing in a group outside a chip shop. They were brutally assaulted and charged with disorderly behaviour. Several have been told to expect jail sentences.

* **PORTADOWN.** Activists are stopped and questioned by the police every time they sell in the town. Loyalist youths are continually harrassed, but the NF gets more than its fair share.

* **BELFAST.** "Don't Vote" *NF News* election special is held up "in the post" and doesn't arrive until June 12th – the day *after* polling day.

Volunteer workers at Beacon Bookshop are repeatedly stopped, questioned and abused by police when leaving the shop. The clear aim is to intimidate them into staying away, thus making it impossible to run the shop. It stays open!

ROMFORD. Two Community Activists arrested and charged with four charges of criminal damage. In fact they were part of an anti-mugging team postering the subways in an effort to alert the public to this growing menace. Although only two posters were put up, the police have blamed them for old graffitti put up by persons unknown.

Not only are the charges trumped up, but both their homes were raided by police "in search of further evidence." This was clearly unnecessary in the light of the charges, and as a solicitor admitted, they were in fact looking for "racial literature."

To round off a repressive week, the police also informed one of the men's employers in an effort to lose him his job.

To be continued.

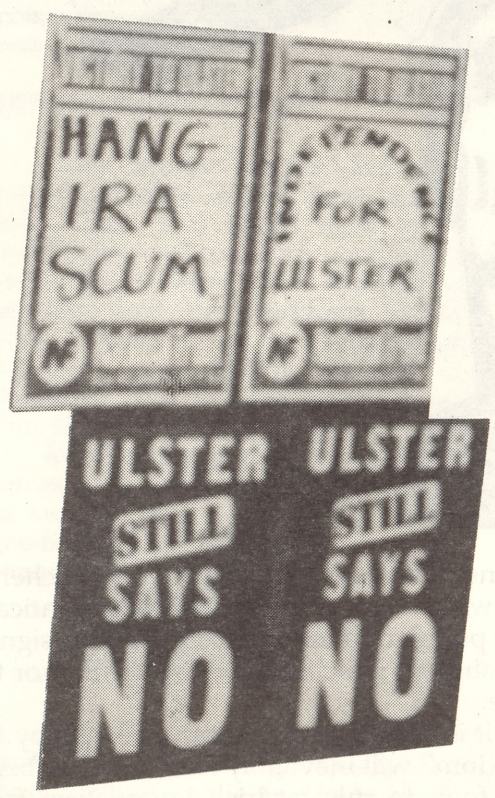
Ulster

NATIONAL FRONT NEWS Supporters in Rathcoole have been very busy recently. As well as setting up an extensive door-to-door paper selling round, they have been out postering night after night.

Demanding *Independence for Ulster, Work Not Dole, National Freedom and Social Justice, Hang Thatcher* and *Smash the IRA*, the posters provide a hard-hitting and eye-catching method of getting the NF message across to local people.

The unit now has its eye on a vacant local council seat – caused by the resignation of "Democratic" Unionist Party dissidants who have broken with their leader, Ian Paisley.

THE NF's Ulster Central Executive has now started to issue a regular bulletin to all cadres, *NF News* Supporters and Friends of the Movement in Ulster. The first issue says that this is intended particularly to help keep isolated members in touch and involved.



All NF members and supporters were told to spoil their ballot papers in the General Election with the words *Ulster a Nation – NF*. The press were also sent detailed statements as to why the National Front was boycotting elections in which it would probably have done quite well. More good publicity like that reprinted in our last issue was won as a result, and the NF's principled and intelligently argued stand has won respect.

THE ULSTER NF urgently needs an Answer Phone to install at ***Beacon Books.*** This will cost 95. A couple of decent size donations from wealthy mainland units would be welcome, but individuals with a special interest in Ulster are urged to help out as well.

Please send whatever you can afford direct to ***Beacon Books, 134 Templemore Avenue, Belfast, BT5 4FX.***

The lads in Ulster are really on the sharp end of State repression and harrassment, so please give them the support they deserve.

TECHNOLOGY FUND APPEAL

THE VITAL TECHNOLOGY FUND has made further good progress since our last issue. Readers have added another 119.50 to the growing total. We only need to do the same again and the NF can buy the first computer modem and software we need to make our propaganda production even quicker – and give you an even better *NF News.*

This campaign will be geared to getting across the *positive* aspect of the Movement's White Pride outlook. We must get across to the public and the media that the real "race haters" are the multi-racialists who seek the destruction of all races through integration.

* **NEXT NFN published 24th July.** The next issue will be available from Friday 24th July. Pick up supplies at Race Campaign meeting. Bring cash funds. Strictly no credit. Please note that on future lit. runs no papers will be left unless payment is made in full on delivery.

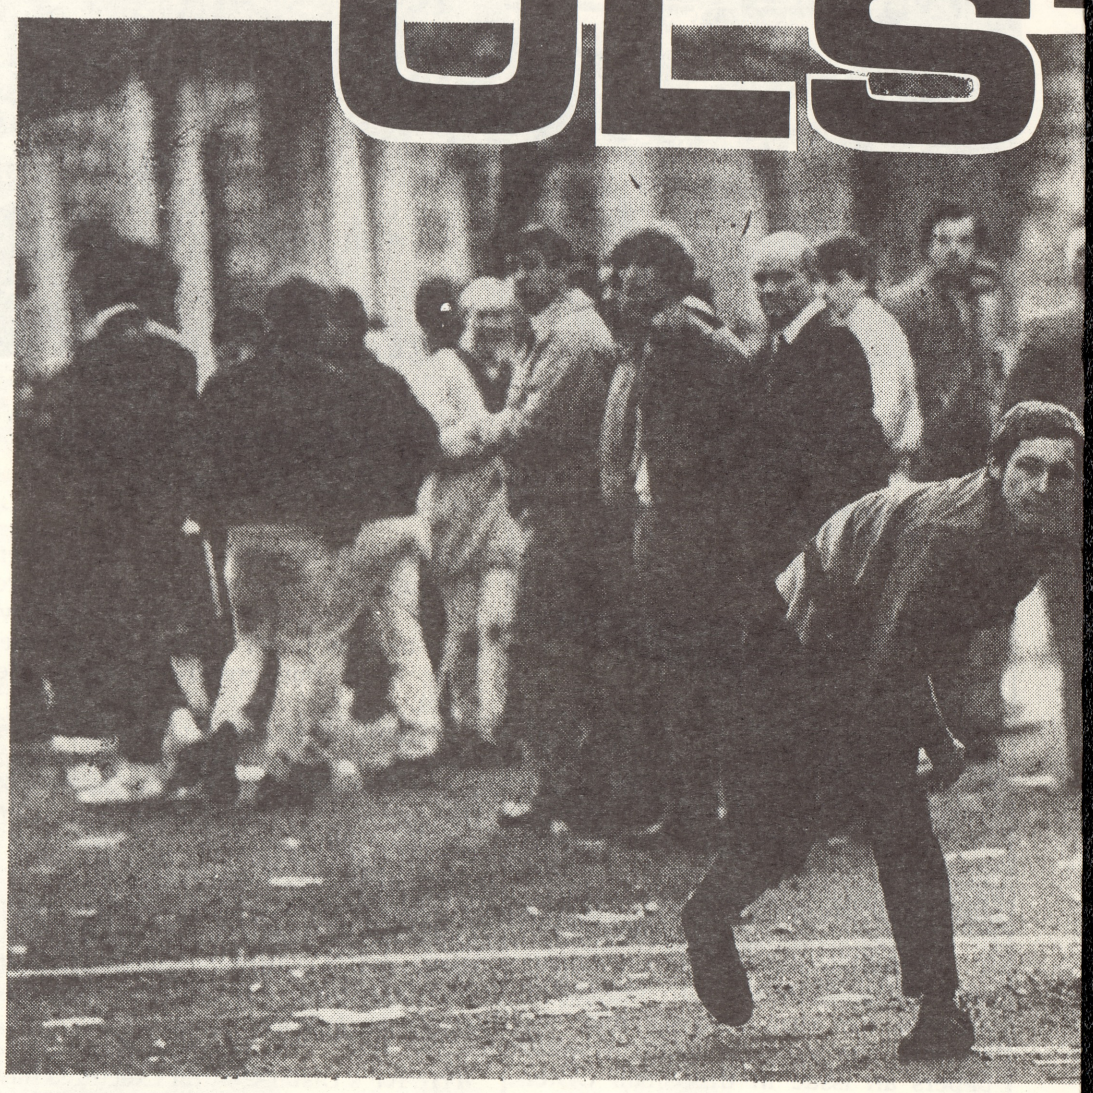
LOCAL CONTACT LINE ANSWER PHONES. The *NFN* sales unit in Newcastle has now joined East London Region in having a 24 hour answer phone line for enquiries by the public. Once local stickers, posters and leaflets bearing such numbers are distributed, the enquiry rate can be expected to show a significant increase. All major units or regions should aim to set up this part of *their* local publicity operation within the next two months.

Independence will bring

ULS



Rioting and civil disobedience will continue and the economic and social principles of the

IT MUST now be clear to everyone that there is no chance of Thatcher or the Westminster parliament bowing voluntarily to the democratically expressed wishes of the majority population in Ulster. There is no significant section of the British Establishment which has any sympathy for the wishes and identity of our people.

Under these circumstances, it is a sad fact that continued rule by the government of the "United Kingdom" will inevitably lead to Ulster being handed over, bound hand and foot, to rule by Irish imperialism from Dublin. Our British cultural identity is under attack by the British Establishment – its politicians, industrialists, police chiefs and media barons. Anyone who tries to deny this is either a fool or a liar.

STARK CHOICE

This leads us to the greatest irony in Ulster's history: the only way now for Ulster to preserve her identity as a British ***nation*** is to break away from the British ***State.*** The Establishment's decision to ditch Ulster leaves us with a stark choice: ***Independence or national destruction.***

So Ulster will only survive if her people have the guts and political will to reject rule from London as well as Dublin, and to create a non-sectarian, independent nation. This means defying the enormous power of the British State, which can only be done by building ***Loyalist Counter-Power.***

This means that we must all work together to create Loyalist-run alternatives to every State institution – from the Civil Service to the media, from the tax system to the N.H.S. ***Loyalist counter-power*** will *not* be built by stoning RUC vehicles or burning out innocent Catholic neighbours. It can only be built by constructive initiatives which steadily place more and more real power in the hands of all the people of Ulster.

Over the last year, ***National Front News*** has made a series of concrete proposals as to how this can be done. And the Ulster Clubs' original civil disobedience ideas were also a useful contribution. But the old Unionist leadership assured us that they had everything under control and that such radical measures were uncalled for, so nothing was done.

But their time has run out. It is now crystal clear that the Anglo-Irish betrayal cannot be fought with hot air or bricks, but only by ***constructive mass action.***

So this special feature examines some of the National Front's proposals on building ***Loyalist Counter-Power.***

THESE PROPOSALS for ***Loyalist Counter-Power*** have been carefully worked out to be practical *first steps* in the long struggle to take power away from the Westminster traitors and give it back to the people of Ulster.

If Thatcher ignores them, we will win, because real power will shift into our hands. If she uses violence to stop such constructive popular initiatives, her rule will be exposed as the vicious dictatorship which it really is.

This **Six Point Action Plan** can work. It was offered to the old leaders of the loyalist cause a year ago, but they didn't have the guts or the vision to implement it. So now it is up to people like us – and *you*. Of course it involves hard decisions and hard work, but ask yourself this: ***Can anything less save Ulster?***

1) STRIKE A LOYALIST RATE. NO RENT FOR THATCHER.

Since Westminster completed the destruction of democratic local government in Ulster, we have had no say in how our rent and rates are spent. Nor do we have any control over our own amenities and communities. It is time to use our money to pay for facilities controlled by local people.

HOW WOULD IT WORK?

A small number of test areas would be chosen by local community leaders. Everyone in these areas would be asked to pay a proportion of their rent/rates to a local ***Ulster Community Fund.*** This would then be used to pay for some badly needed local amenity such as a pensioners' club or youth training centre. What would Thatcher's State look like if it tried to use force and prison sentences to stop such a caring initiative?

2) V.A.T. STRIKE

V.A.T. is an unjust tax which falls heavily on the poorer parts of the country and on the less well off. To add insult to injury, our own shopkeepers and tradesmen are forced to act as unpaid tax collectors. But why should we pay taxes to a State which does not even recognize us as full British citizens and which denies us fundamental democratic rights?

Because the collection of V.A.T. is such a complicated business, it would only take a few businesses to refuse to collect it to throw the whole system into turmoil. And a widespread strike

would cost the State millions of pounds a week.

HOW WOULD IT WORK?

Customers would still pay V.A.T., but every penny of it would be paid into specially opened bank accounts. It would then be saved until the State backs down and restores our democratic rights, or until authority passes to the government of the New Ulster after UDI.

3) REBUILD OUR COMMUNITIES

Part of the reason for our failure to destroy the Agreement is that high unemployment and reliance on government hand-outs has undermined our confidence in our own ability to get things done for ourselves.

One obvious example is the housing crisis. Ulster is full of derelict houses, unemployed building workers and homeless families. If we could just start to renovate our own housing stock, we would improve this scandalous situation – and take a major step towards breaking the Westminster tyranny.

HOW WOULD IT WORK?

Every loyalist community would set up a Housing Action Committee to chose and take over one empty house. This would then be renovated by volunteer labour and let by the committee to a local homeless family. Normal rent would be paid and would help pay to renovate further properties left empty by the Housing Executive or big private landlords.

4) T.V. LICENCE STRIKE

Ulster's T.V. licence money helps pay for the BBC, even though it is viciously biased against Ulster and loyalist spokesmen rarely get a chance to put over our case.

Faced with a similar problem, thousands of Welsh speakers campaigning for a Welsh T.V. channel refused to pay their licence fees. Some were jailed and several of their leaders went on hunger strike. The government surrendered and set up a Welsh T.V. channel.

HOW WOULD IT WORK?

Ulster loyalists would refuse to pay licence fees until the BBC produced acceptable safeguards against biased reporting and agreed to carry more programmes about Ulster's heritage and to make available a regular community access programme for loyalists to air their views.

5) SET UP AN ULSTER CO-OP

Many factories and businesses in Ulster are owned or controlled by multi-national companies, the Thatcher State or by company booses too greedy to sever trading links with the imperialist Free State.

Such concerns are the enemies of Ulster and need to be brought under control. The take-over of one particularly bad example, and its conversion into a workers' co-operative, would teach the others a lesson and begin the construction of an Ulster people's economy.

HOW WOULD IT WORK?

Local loyalist leaders, including trades unionists, would chose a suitable target. This would need to be making low cost consumer goods from easily obtainable materials. It would be occupied and the workforce would begin a "work-in" on the co- operative principles now working so well in thousands of companies in Britain and Europe.

In return for good quality and just prices, all loyalists would have a duty to support the co-op by buying its goods instead of those of its capitalist competitors.

REAL COMMUNITY POLICING

The violence caused by provocation by the RUC has gone on far too long. When policing techniques involve driving landrovers into crowds including women and children, and firing baton rounds at people walking home from the pub, it is time for ordinary citizens to unite to stop the violence caused by the police presence.

We must learn to protect and police our own communities. The confidence to do this will only come from experience, so small scale experiments are needed first.

HOW WOULD IT WORK?

A carefully picked local estate would become the responsibility of a well-disciplined team, which would work with local residents to uphold peace and good order and to prevent provocative RUC policing. The Ulster Defence Regiment would be welcome to inspect the area. Anyone attempting to stir up sectarian violence or to commit any other crime would be handed over to them at once.

ALTERNATIVE GOVERNMENT

Once these practical first steps have been taken, more ambitious projects could be tackled. If we organize our own essential services, run our own economy, house our own families and keep the peace ourselves; Ulster will show that we don't need rule from London, let alone Dublin.

Once widespread and effective initiatives have built up ***Loyalist Counter-Power*** in every area of our national life, the structures of the NIO/Dublin junta will be irrelevent. A democratic Ulster alternative government will then already exist in all but name. The British State will then negotiate a formal handover of power, just as has happened in dozens of former colonies all over the world.

It can be done. The Ulster Workers Council Strike in 1974 has entered history as the only successful mass action for constitutional change in the whole of Europe since the war. That victory was thrown away because it wasn't followed up with a drive for true self-government. But the success of the strike itself should be a source of inspiration and hope. ***Loyalist Counter-Power*** has worked before – and it will work again.

ULSTER COUNTER-POWER can give our people control over their own future, but there's not much point to it unless that control is used to build a *worthwhile* future, which offers dignity and prosperity to every citizen loyal to the new state. An independent Ulster cannot hope to survive if it is run as a capitalist system for the benefit of the fur-coat brigade alone, or as a sectarian police state.

The New Ulster will only survive and prosper if it is run as a Distributist community benefit state, based on the principles of well distributed property and Social Justice for all. The exact details can only emerge as a result of wide-ranging debate, but the National Front's broad proposals were outlined in May last year and are reprinted here. We believe that Ulster should be run by a network of Community Councils. Each residential area and workplace council should take local decisions itself, and elect a delegate to represent its wishes at the Ulster National Council at Stormont. These delegates would be subject to recall at any time the Community Councils decided, and would only report the views of their council, not make decisions for themselves. We've had enough of betrayal by "representative" government.

The Council government system would work within the following broad guidelines:

*THE ESTABLISHMENT of an Ulster Investment Bank, under the control of the elected government, to fund projects essential to the future of Ulster's economy. Special attention to be given to the development of high-tech. engineering industry.

*NEW CREDIT needed by the economy to be issued debt free through the Ulster Investment Bank. Credit creation must be in the hands of the sovereign government, not a source of wealth and power for private bankers as it is now.

*PROGRESSIVE TARIFFS to establish and preserve a secure home market for essential industries.

*PROTECTIVE MEASURES and grant aid to strengthen the position of Ulster's farmers and fishermen. A ban on the foreign ownership of land.

*ESTABLISHMENT of an Ulster National Labour Corps to undertake vital construction projects. It's our country, it's up to us to rebuild it.

*THE HANDING OVER of empty and derelict properties to newly married couples prepared to renovate them. The active encouragement of private property in all areas of national life.

*ULSTER'S security forces to be under the direct control of the Stormont parliament. A Declaration of War against the forces of armed Republicanism.

*THE RESTORATION of the death penalty for all terrorist and sectarian murders.

*MILITARY TRAINING and the right to bear arms to be given to all citizens giving their allegiance to the sovereign government of Ulster.

*DECLARATION of Armed Neutrality. No foreign bases on Ulster's soil. The retention of British bases to be negotiated in return for economic aid.

EXPOSING THE HATEMONGERS PART 4

OUR CONTINUING expose of the Zionist/Marxist hate-sheet *Searchlight* takes a look this issue at two of the "backroom boys" – **Graeme Atkinson** and **Michael Luft.**

Atkinson lives in a well modernized *bijou* stone cottage at 115 Dye House Lane, High Street, New Mills, Derbyshire. He is the person whose phone number (0663 43599) is given on page 2 of *Searchlight* for sales and circulation enquiries.

This can't be too hard a job. As the cutting reproduced from the current edition of ***Benn's Media Directory*** reveals, the circulation of the disreputable and inaccurate rag is much lower than we originally suggested – a mere 3,800.

His fashionable home is in a small terrace nestling in the Derbyshire countryside, with magnificent views of the surrounding Peaks. No inner city decay or council estate sprawl for this Vanguard of the Proletariat!

COMMUNIST

Atkinson used to work for the Communist Party daily newspaper, the *Morning Star*, as its 147 per week district reporter in Yorkshire and the North East.

But he fell out with his "comrades" when he alleged on a Channel 4 programme *20/20 Vision* that the Bulgarian authorities had tried to recruit him to track down a KGB defector to Britain. Atkinson alleged that he was approached during a four day all expenses paid trip to Sofia, back in 1985.

After the programme broadcast Atkinson's story, the Communist paper sacked him. Mr. David Whitfield, the then Deputy Editor said:

"He was dismissed because he witheld information from us for 14 months, then appeared on television and made the allegation. The first we knew about it was when people began ringing us up."

Atkinson took the *Morning Star* to an Industrial Tribunal, with the backing of the National Union of Journalists. He was represented at the tribunal by the deputy general secretary of the NUJ, Mr. Jake Ecclestone. The tribunal ruled that the paper was entitled to sack Atkinson, although it refused to grant the *Morning Star's* unusual application for costs.

It is interesting to note, however, that Atkinson is still so heavily involved with *Searchlight*, which, as this series is revealing, has many links with the Communist Party.

VIOLENT

Also pictured here is the home of **Michael Avril Luft,** at 27 Thatch Leach, Chadderton, Oldham, Lancashire. His home telephone number is 061 663 6725. Luft is a close associate of *Searchlight* hack **Gerry Gable.**

Luft was secretary and chairman of the Manchester "Anti- Nazi League" in 1983. The ANL posed as a "broad alliance" of ordinary people opposed to the NF, but was in reality heavily financed by Zionist businessmen and was little more than a front for the violent Trotskyite Socialist "Workers" Party.

Before this, he was convicted and fined, with Atkinson, for distributing illegal anti-NF smear leaflets during the October 1974 General Election. And he was also arrested on 13/8/77 and charged together with **A. Harrison** with attacking a Manchester NF coach. The case was later dismissed.

Luft is now helping to organize a group called "SOS Racism," together with **Glyn Ford,** Labour Member of the European Parliament for Greater Manchester East.

COMMUNITY ACTION

COMMUNITY ACTION is the local campaigning wing of the National Front. The NF believes that people should organize self-help schemes to get things done in their own communities. Every step which reduces our servile dependence on political parties and the "Nanny State" is to be encouraged.
This page exists to publicize and support such initiatives, whether they are organized by active nationalists or by other members of the public.

FIGHTING FOR OUR COMMUNITIES

Campaign to Save Leeds Market

THE NATIONAL FRONT in Leeds has only been reformed for a matter of months, after state disruption, but they have already embarked upon some hard hitting Community Action initiatives as well as producing local leaflets and a well produced local paper **-Frontline.**

They are presently campaigning to save Leeds Market situated in the city centre. The Kirkgate Market is under threat from the Labour council who want to bulldoze it "and create another soulless shopping centre."

The Leeds Market is housed in some magnificent Victorian buildings and it attracts shoppers from all over Yorkshire because of its character and unequalled friendliness.

Already, thousands of people have put their names to petitions organized by the market traders and Leeds NF have pushed their way to the forefront of this important campaign.

As well as producing a series of posters specifically aimed for the initial phases of the campaign, comrades in Leeds also plan to hold a public meeting to expose the local council for what they are, and propose several constructive demands to be met in place of the proposed developement.

These demands are as follows:

1) Improvement of the EXISTING market.
2) Building of living accomodation on Quarry Mill to be a priority.
3) Conversion of the upper floors of many shops in the centre, which are now empty, into flats for single people and childless couples.

In the words of our Leeds comrades; "OUR CAMPAIGN BEGINS NOW!"

and stop Council vandalism

For many years now the British people have been forced to sit back and watch as local politicians and town planners laid waste to their homes and their streets in a wild and grandiose master plan. The centres of our cities have been demolished and beautiful Victorian architecture has been destroyed to make way for a concrete jungle of tower blocks and high rises. The centre of Leeds is no different to any other city in these respects, but eventually there comes a time when the destruction has to stop and preservation must take its place. It takes just one mad re-developement scheme to arouse the senses of local people and bring them to action, that scheme is now under starters orders and it means not just the destruction of buildings but of a whole way of life and indeed one of Britain's historical concepts. The scheme I refer to is the plan by Leeds Labour Council to bulldoze Kirkgate Market and to re-develop the site as another shopping centre. Leeds National Front is to mount a campaign to fight the proposed Kirkgate Shopping Centre and to save the old Market with its character and friendliness. The major political parties do not care about the destruction of this vital part of our city, very few of them use the Market and any way the profit to be made by selling the site will give the Council more funds to throw away on their various lunatic bandwagons.

The Market Traders are up in arms about the destruction of their jobs and future and have collected a large number of signatures on petitions which they believe Councillors will be obliged to take heed of. Sadly, the men and women who have signed petitions and then look to their Aldermen to take heed are naive in the ways of politics and of big business. Petitions will not stand in the way of profit, grievances will not stand in the way of greed , only a united community standing firm to defend their jobs, their heritage and their future, will make the power crazed Civic Hall fanatics take heed. Leeds NF will now start the fight to unite our community and save Kirkgate Market.... (See Page 3)

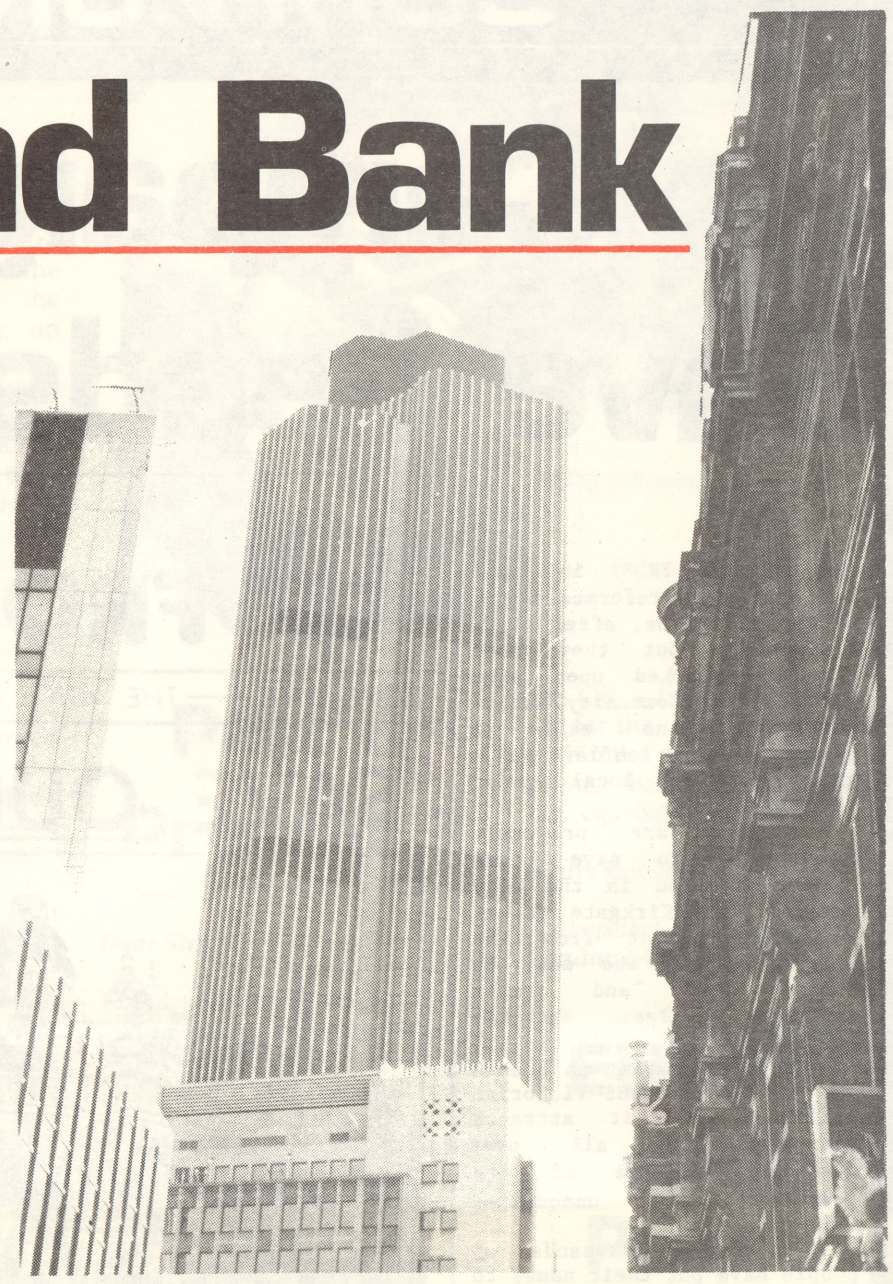
FIGHT BACK FOR BRITAIN! 30p

Midland Bank rocked by Third World Debt Crisis



The City of London – Temple of Mammon

THE WORLD DEBT crisis is beginning to hit High Street banks in Britain. Two weeks ago ***National Westminster*** wrote off hundreds of millions of pounds in outstanding debts which it now accepts will never be paid back by impoverished Third World nations. Now the ***Midland*** has been forced to listen to financial reality and to brace itself to accept the loss of at least **£ 1 Billion** in the same way.

The Midland is being forced to sell off assets and to issue extra shares on the Stock Exchange in order to claw in enough money to keep afloat. **Citicoorp,** one of the biggest banks in the US, has also had to write off a large chunk of its Third World debt, and a number of major American banks are in danger of complete collapse if they are forced to follow suit.

The banks' problem goes back to the 1960's and '70's, when they encouraged many poor Third World countries to finance massive and quite inappropriate Western style expansion schemes by getting hopelessly into debt. When the world recession at the start of the 1980's led to a collapse in the prices these countries could get for their raw materials, it became clear that they could never hope to pay off the interest mounting up, let alone repay the original debts.

Brazil, for example, is forced to give more than 40% of everything she produces to grasping international financiers, just to pay the interest on her massive debt. And all the countries in the "Band Aid" starvation belt in Africa pay more to international capitalist banks than they receive in aid from the West.

GLOBAL RIP-OFF

The Midland was one of the main British based banks to join in this global rip-off, and now its shareholders are paying the price. The bank looks set to write off £ 1 Billion of its **£ 4.2 Billion** loans to Third World countries. This would wipe out most of Midland's revealed profits for the next two years.

In order to cushion the blow, the bank is likely to sell its Thomas Cook travel business. This is just one of the huge range of non-banking companies which the bank has gobbled up over the years. It was one of the first companies to be privatized by the Tories in the early 1970's and it is interesting to see that it ended up controlled by one giant bank, rather than the thousands of small shareholders which the Tories claim to want to encourage.

The sale of Thomas Cook could raise around £ 200 million, and might have to be followed by the disposal of Midland's Greenwell Montagu investment banking arm. The remaining shortfall will be made up by issuing some £ 500 million worth of new shares to investors who don't realize that the bank may not get away with just these adjustments in the future.

WORSE TO COME

For the banks are trying to hide the fact that there is worse to come. The idea that if they write off about one quarter of their Third World loans, the rest will be repaid, is a sick joke.

The storm clouds of an international trade war and a renewed world recession can already be seen gathering about a year in the future. This will complete the destruction of the shaky economies of most of the debtor nations. If the banks get back much more than 10% of their loans, they'll be very lucky.

And there is always the possibility that one government in South America will find the courage to put its own people before the international financial system and tell the banks to go to hell. This would have a "domino effect" on other countries in a similar position and would leave the banks' corrupt empire of misery in ruins.

IMPACT ON BRITAIN

Many people in Britain don't have much time for the countries which are worst hit by the bankers' debt swindle. But they should have, because it affects us in many ways as well.

Firstly, Britain is heavily in debt to international finance too. Well over 10% of all government income is paid direct to the banks in interest payments, rather than financing hospitals, schools or adequate national defence. Many local authorities spend more servicing their debts to international banks than they do on providing decent houses for local people. The average cost of building a council house is ***doubled*** as a result of council interest payments.

Secondly, the collapse of the economies of the Third World has been a major factor in creating the unemployment and poverty which has encouraged mass coloured immigration into the wealthier White countries. So the rotten international banking system is not only destroying nations in Central and South America, Africa and Asia; it is also creating the pressures which are destroying the identity of the nations of Britain and Europe as well.

And finally, while the High Street banks can cope with the loss of a quarter of their high risk overseas debts, the effect of a general refusal to pay would be far more serious. The collapse which followed would shatter the Stock Market, bankrupt pension funds and even hit the deposits of individual savers.

BANKERS' SWINDLE

The National Front looks forward to the day when the corruption and fraud at the base of the bankers' usury swindle is exposed for all to see. For it will spell the end of the international capitalist system, and of the political pygmies in Westminster who do its bidding.

Then we can start to build a new and just international alliance of free nations which co-operate through barter agreements to provide each other with the things they cannot produce for themselves. A sane world where the producer has the money to consume what he produces; where food goes to feed hungry families, not to enrich bankers by rotting in mountains of waste.

A world where each nation is run *by* its own people, *for* its own people. A world of nationalist co-operation, not internationalist throat-slitting.

The first steps along the path to Victory

THE NATIONAL FRONT is Britain's only effective Nationalist movement. If this country is to be saved from destruction by multi-racialism, Capitalism and Communism, it will only be through the victory of the National Front.

There are several other so-called "Nationalist" groups, but they cannot compete with the NF. Indeed, they are mainly composed of reactionaries, drunks and police informers who have been thrown out of our organization in the drive to put ***quality before quantity.*** The National Front is in a completely different league to these dead-end splinter groups. Just look at the ***facts:***

Only the National Front has a nationwide sales unit structure capable of mounting effective campaigns. During the recent General Election, for example, NF activists distributed 100,000 "Don't Vote" leaflets and put up thousands of striking posters with the same theme. All this was done in just two weeks. No other "Nationalist" group lifted a finger during the election.

Together with the resulting publicity, it meant that hundreds of thousands of people got the Nationalist message and learned why parliamentary representation is an undemocratic farce. Intelligent new recruits have been won as a result.

Only the National Front can produce a professional ten page newspaper. During the election, we produced two issues in less than a month. A fortnightly *NF News* gives the Front a powerful agitational voice which none of our "rivals" can begin to match.

Only the National Front has an internal structure and constitution which is designed to fit the needs of a revolutionary nationalist organization aiming for real power. It is a structure which gives control of the movement to the activists, organizers and propagandists who do the work. It is a structure based on commitment, and authority.

It is difficult to infiltrate and would not grind to a halt with the removal of a few key people. This realistic and efficient structure gives the NF a massive advantage over its competitors, who are either "organized" like a school debating club, or are lumbered with corrupt and blinkered dictatorship.

Only the National Front is well financed through imaginative trading operations which provide funds for its national operations and its local sales units at the same time. And only the NF has a co-ordinated plan to use a growing income to build a modern propaganda machine using all the latest technology.

These ***facts*** explain why the National Front is bigger than all the other little "Nationalist" sects put together. They make it clear that to waste time or money supporting any "Nationalist" group other than the NF is a diversion which actually hinders the building of a genuine Nationalist movement capable of taking power in this country.

The facts make it clear that ***only the National Front is the Movement of the Future.***
